## Environmental Regulations Technologist

The Upper Thames River Conservation Authority is currently accepting resumes for an Environmental Regulations Technologist position. This short fixed-term contract position will be up to six months in length.

### Responsibilities:

The Environmental Regulations Technologist will serve as a technical plan reviewer for both planning proposals pursuant to the Planning Act and applications made to the UTRCA pursuant to Section 28 of the Conservation Authorities Act, helping to ensure compliance with the Conservation Authority's policies, goals and objectives. This position will assist in providing technical support to member municipalities on matters related to watershed and subwatershed planning and management of flooding and erosion hazards.

### Qualifications:

- A diploma from an accredited college in engineering or engineering technology specializing in civil, environmental, or water resources, OR a bachelors degree from an accredited post secondary institution in engineering, specializing in civil, environmental or water resources.
- Eligibility for membership in the Ontario Association of Certified Engineering Technicians/Technologists as C.E.T. or the Professional Engineers of Ontario as P.Eng. is required.
- At least 3 years practical experience related to development planning and servicing, water resources-related projects, modeling of hydrologic and hydraulic systems, implementation and monitoring of sediment and erosion control measures, flooding and erosion hazard analysis and Low Impact Design (LID) is preferred
- CPESC certification (Certified Professional in Erosion and Sediment Control) is preferred or should be achieved within one year of employment
- Knowledge of applicable legislation, policies and processes pertaining to this field
- Excellent verbal and written communications skills, with an ability to work cooperatively both within the UTRCA office environment and with a diverse stakeholder group including consultants and government officials at a municipal and provincial level
- Knowledge and experience with computer systems and software related to responsibilities, including standard office productivity software (word processing, spreadsheet, presentation software etc.) and database applications.
- Must possess a valid Ontario Driver's License

### Wage/Benefits:

\$28.74 to \$34.97 per hour  
Full time hours – 35 hours per week  
One sick day per month if needed
