

Erosion & Sediment Control Workshop

Thursday, March 2, 2017

Watershed Conservation Centre
Fanshawe Conservation Area
1424 Clarke Road, London

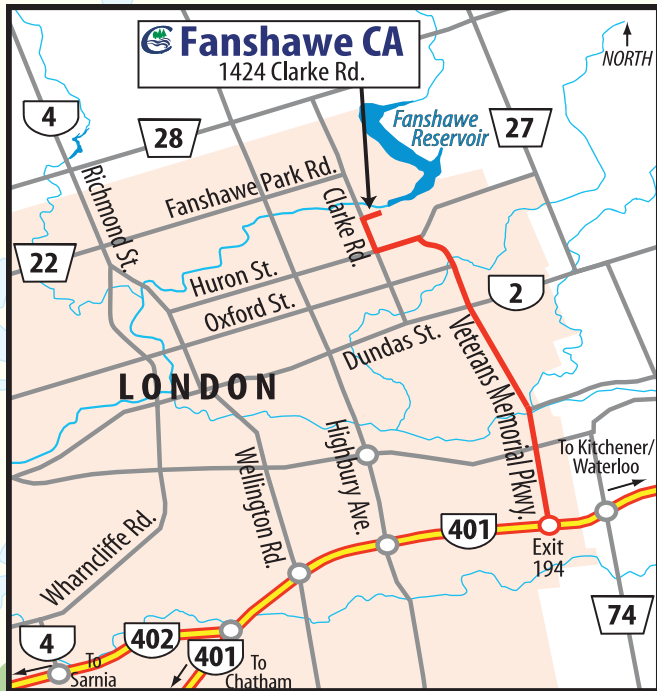

Environment and
Climate Change Canada

Environnement et
Changement climatique Canada

AGENDA

Time	Topic
8:30 - 8:45 am	Welcome
8:45 - 9:30 am	Introduction <ul style="list-style-type: none"> • Why erosion and sediment control (ESC) is critical • Erosion vs. sediment
9:30 - 10:15 am	Regulations <ul style="list-style-type: none"> • Provincial and federal regulations • Relevant sections of acts and regulations pertaining to ESC
10:15 - 10:30 am	BREAK
10:30 am - 12:00 pm	Erosion Control <ul style="list-style-type: none"> • Best Management Practices (BMPs) for erosion • Multiple types of control and where they are best suited • Adaptations or alternatives to failing controls on sites • How each control/BMP has a specific application – better for some types of projects than others
12:00 - 12:45 pm	LUNCH
12:45 - 3:00 pm	Sediment Control <ul style="list-style-type: none"> • Best Management Practices (BMPs) for sediment • Alternatives for water treatment • Multiple types of each control and where they are best suited • Adaptations or alternatives to failing controls on sites • How each control/BMP has a specific application – better for some types of projects than others
3:00 - 3:15 pm	BREAK
3:15 - 4:30 pm	Tenders and Plans <ul style="list-style-type: none"> • Review provided drawings in groups and propose alternative ESC measures • Overview of tenders, how they are set up, how to work effectively under them, potential for changes
